

## QUALMARK CORPORATION RECEIVES LARGEST SINGLE ORDER IN COMPANY HISTORY

DENVER—September 27, 2005--QualMark Corporation (OTCBB: [QMRK](#)) today announced a multi-unit sale of its mid-sized Typhoon Chambers to Airbus's largest commercial avionics supplier, which represents the largest order the Company has ever received. This order is in addition to multiple Typhoon chambers that were purchased by the same customer throughout 2005. The sale, which approaches \$600,000, reflects the growing importance and dependency of HALT (Highly Accelerated Life Test) and HASS (Highly Accelerated Stress Screen) technology in the avionics industries.

These test chambers have been purchased to support additional testing capacity on the core electronic components of the new A380 Airbus. This sale occurred during the third quarter of 2005.

"Receiving a multiple unit order from the largest commercial avionics suppliers to Airbus strengthens QualMark's position in the multi-billion dollar avionics industry," said Charles Johnston, President and CEO of QualMark. "This order is very encouraging to QualMark, as it marks the 20<sup>th</sup> Typhoon unit sold to the commercial avionics manufacturer, which places it as one of the fastest growing users of Highly Accelerated Life Testing (HALT) and Highly Accelerated Stress Screening (HASS) in the world. It also proves that companies have embraced the technology and have integrated HALT and HASS into their quality programs, throughout multiple product lines," concluded Mr. Johnston.

*QualMark Corporation*, headquartered in Denver, Colorado is the leader in designing, marketing, and manufacturing accelerated life-testing systems providing the world's largest corporations with solutions that improve product reliability and allow them to get to market faster. The Company has installed more than 600 of its proprietary testing systems in 25 countries. The Company operates and partners with ten testing facilities worldwide.

The Company also offers electrodynamic vibration solutions through its subsidiary, QualMark ACG Corporation.

*QualMark ACG Corporation*, headquartered in West Haven, Connecticut is the leader in supplying electrodynamic systems, components, and service to the worldwide vibration test equipment market. QualMark ACG provides turn-key vibration testing systems consisting of factory rebuilt/upgraded electrodynamic systems, new QualMark ACG built solid state power amplifiers and new digital vibration controllers. For over 30 years, QualMark ACG (formerly ACG Dynamics, Inc.) has been supplying quality replacement parts and field Service for most brands of vibration equipment.
